### ***SHARING ...***

#### ***Core Circle of All Nations Principals from Learning from a Kindergarten Dropout (2005)***

A spiritual (not to be confused with religious) foundation is integral to the way of life

The medicine wheel serves as a conceptual tool to access complexity

*Ginawaydaganuc* relationship operates at multiple levels

The distinction between *individuality* (the individual is a unique part of the biodiverse eco-community) and *individualism* (the rights of one supersede the rights of the community as free will) is understood

The individual and community are inextricably interconnected

Conflict is negotiated with responsibility, respect and generosity to access harmony and balance
